

1.11 WORK RESTRICTIONS

- A. On-Site Normal Working Hours: Work shall be generally performed only during working hours permitted by local authorities, of 7:00 a.m. to 5:30 p.m., Monday through Friday, legal holidays excluded, but not more than eight hours per day, unless otherwise specified by applicable Laws, except otherwise indicated. Working hours are subject to provisions of M.G.L. c149 §§30-34, limiting the number of hours individual workers may work in one day and in one week.
1. Work out of normal work hours: if the Contractor desires to carry on the Work outside of regular Working Hours or on Saturdays, Sundays, or Massachusetts or federal holidays then the Contractor shall allow ample time to allow satisfactory arrangements to be made for inspecting Work in progress and shall bear the costs of such inspection. The Owner shall bill the Contractor directly for such costs.
 - a. Work performed outside of Normal Working Hours without the consent or knowledge of the Architect and/or the Owner shall be subject to additional inspection and testing as directed by the Architect. The cost of this inspection and testing shall be borne by the Contractor whether the Work is found to be acceptable or not. The Owner at its election shall be entitled either to issue a credit Change Order to cover such cost or to withhold such cost from any further payments due the Contractor and/or to receive a payment from the Contractor of the amount of such cost.
 - b. Contractor is responsible for determining whether Work outside of the normal working hours requires a permit from the local Police Department or other local authorities.
 2. No work is allowed on the Fridays and Saturdays of the University of Massachusetts Amherst Graduation weekends in May 2024 and May 2025.
 3. Hours for Utility Shutdowns: Perform work involving utility interruptions only at times approved by the Owner when Owner or neighbors will not be inconvenienced.
- B. Utility Interruptions (Outages): Do not interrupt utilities serving facilities occupied by Owner or others unless permitted under the following conditions and then only after arranging to provide temporary utility services according to requirements indicated:
1. Notify Architect and Owner not less than three days in advance of proposed utility interruptions. Affecting the Owner's operations, or seven day in advance of operations that will affect neighboring properties.
 2. Do not proceed with utility interruptions without Owner's written permission.
 3. Where interruption of fire protection and fire alarm systems, or other life safety systems, are planned, make all arrangements with local fire department officials and provide standby systems or other facilities, including fire watch or firefighter attendance required by such official, at no additional cost to the Owner.
 4. Contractor shall be responsible for all costs of the Owner arising from outages occurring without approval of the Owner, including accidental outages.
 5. Accidental outages caused by activities of the Contractor shall be immediately corrected by the Contractor at no additional cost to the Owner. Contractor shall provide all measures necessary to correct such outages within the minimum practicable time, including securing services of specialists in the type of repair required, and diverting labor, material and equipment resources of the Contractor (including those not normally engaged in work of this Contract) to the corrective work. Where practicable, Contractor shall provide temporary equipment and/or systems to replace the function of the disrupted systems to permit prompt resumption of the normal activities of the Owner, at no additional cost to the Owner, including such facilities as temporary generators, temporary service connections, or temporary heating equipment, all conforming to requirements of authorities having jurisdiction.
- C. Nonsmoking Building: Smoking is not permitted within the building or within 25 feet (8 m) of entrances, operable windows, or outdoor air intakes.
